Clients

CLIENTS..

Grow-Trees NGO

CRM,
Website, IT Infra customer

Built a custom CRM from scratch to facilitate easy management of process.

Number of automation tools were built which helped reduce operations manpower from 6 people to 1 person, thus allowing the company to grow rapidly.

Includes payment gateway integration, inventory management, GPS mapping.

eBaajaar

Startup Incubation (used CRM, mobile app, IT Infra services) –

Built end-to-end CRM linked mobile app. Allows inventory processing (including expiration time tracking and sales volume recommendations), GPS mapping + vendor location, User behaviour profiling (using machine learning) to identify and recommend based on ordering patterns, marketing-focused integrations, payment gateway integration

SPIRIT EMBASSY The Good News Church

CRM and Attendance Management App

Built a mobile app for the church to manage their staff, members, programmes, attendees across 3 continents

Includes comprehensive reporting and management services within the mobile app as well as a dashboard that management can access with crisp, precise daily reports

RATANLAL

eCommerce customer using NopCommerce

Included inventory management and retail FMCG platform aimed to bring convenience
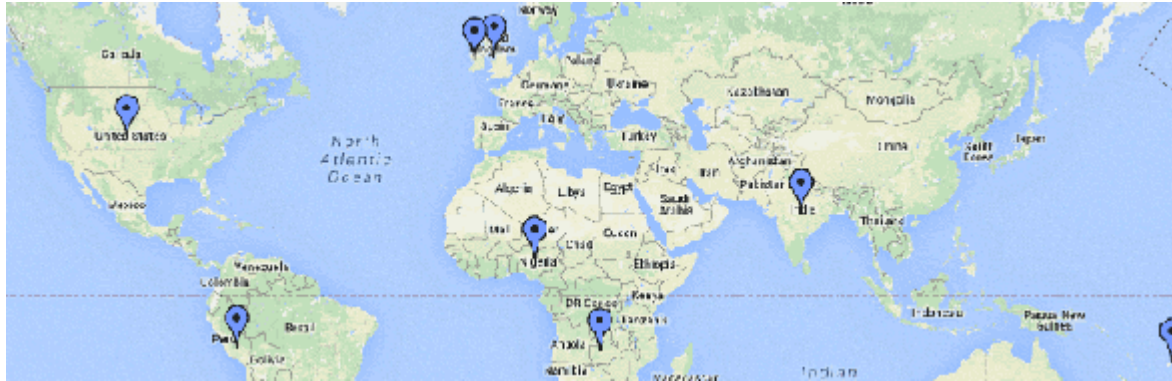

Simply braces

Suffered a lot from COVID lockdowns.

Our digital marketing efforts allowed them to come back with a bang and revitalize a declining business with a 200%+ turnaround.

We've had a whopping 30% lead conversion rate from our efforts
